BI-FOLDING GATE
CANCELLO BI-FOLDING

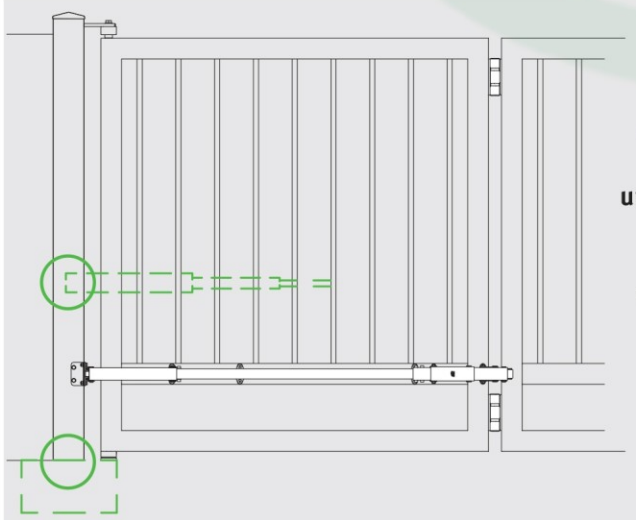

With limited availability of residential space the KIWI Bi-folding kit is the ideal solution.

Negli stretti spazi residenziali, il kit Bi-folding di KIWI è la soluzione ottimale.

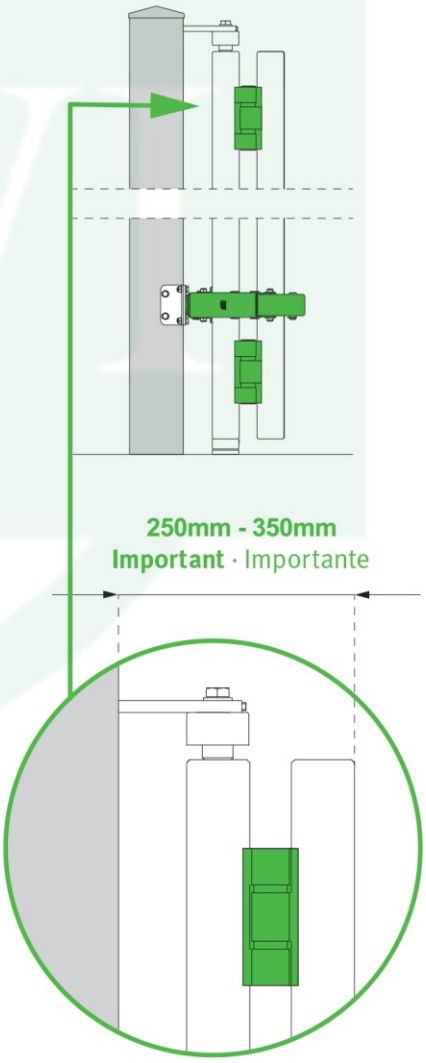

Dimensioning table · Tabella dimensionamento

Can be automated with swing arm or underground motor.

Motorizzazione a braccio o a terra.

A = 1,9 m/min · 8 m/max
H = that you choose · a scelta
Q = 40 mm/min · 80 mm/max

Space problems?

Problemi di spazio?

KIWI has developed a new kit: the Bi-folding trackless solution can be used for small or single Bi-folding entrance as well as double ones for larger driveways.
A complete accessories kit for an easy application on your Bi-folding gate.

KIWI ha progettato un nuovo kit: il sistema Bi-folding non ha bisogno di rotaia e grazie alle ante pieghevoli è ottimale nei casi in cui non vi sia possibilità di scorrimento laterale. Utilizzabile per cancelletti pedonali o aperture maggiori con applicazioni a più ante.
Un kit completo per una facile installazione!
